Local consulting firm announces new website

(Concord, MA, March 7, 2009 - For immediate release) - Financial Analysis and Control Technology Services LLC (F.A.C.T.S), a decision support consultancy located in the Greater Boston area, announces the release of its new website (www.factservices.com).

F.A.C.T.S. chose Chava Hudson Design to do its web development. “We’re excited with the way our new site has turned out, said Bob Katz, F.A.C.T.S founder and president. “Since the creation of F.A.C.T.S in 2003, we’ve been able to offer clients excellent service and value for their business planning and financial systems needs. The new site reflects the dedication to our client’s needs, more focused descriptions of our service offerings and recent testimonials/client success stories. In addition, through the introduction of a “Just the FACTS” blog and a Resources section, we hope to keep the site current with current trends and points of view in the business planning/performance management area.”

“Chava just got it,” said Helaine Seitzman FACTS CMO. “She was the first web designer who could translate our ideas and vision into web reality. We were pleased that she was able to deliver our new site quickly and within our budget expectations.”

We take a unique, personal approach to each client’s situation” says Chava Hudson “to best communicate their needs both visually as well as the written word. I’m very happy with the look of the F.A.C.T.S website and look forward to working with them as their business grows.”
